

Welcome

Who would you say has been a pioneer? Whether famous in history or from personal experience.
What has made them stand out to be called a pioneer?
Who in the Bible encourages you as a pioneer personally?

Word

Have a little reality check. Do you feel you're living a story worth telling? Why or why not?
There were four things that we looked at to have a story worth telling.

Start:

- How well do you finish the things you start?
- What things most often cause you not to finish?
- Describe a seemingly small decision that had a real impact on the direction of your life?
- How was your life altered by that decision?
Small disciplines can lead to big life changes.
- What are examples of some small disciplines you maintain in your life and what can you start doing now that will have a future impact?

Stop:

Andy Stanley: "Direction, not intention, determines your destination"

- How have you seen the truth of this statement play out in your story?
- What are the hardest things about stopping anything?
- How has stopping one thing had an effect on your life story?

Stay:

- How do you typically decide when to stay and when to go?
- What season of life would you describe yourself as being in at the moment?
- Describe a time when you decided to stay when it might have been easier to go?
- What did you learn from that experience?

Go:

- Describe a time when you decided to go when it would have been easier to stay?
- What was the result of your leap of faith?
- Is there a faith step that you need to take now?
- What things keep us from taking that step?
- How can we overcome these challenges?
- Do you tend to act most out of fear or faith?

Consider the four stages and think about which one may apply to you.

- Pray for each other and let God speak into your starting, stopping, staying or going!
- Pray for us as a community as we move closer to Launch day!
