

## Lifegroup Notes

## Feel Thirsty? There's an app for that! Sunday 14th May 2017

**Welcome** - Would you rather be thirsty or hungry? What are you like when you're either??!!

**Word** - Read the story through together - John 4 v.1-29

Maybe split the group into smaller groups and give them the following questions, then come back together and share what each group has discovered.

- What impacts you the most from this story?
- For this woman her 'bucket' was relationship, what are some of the 'buckets' we use to try to satisfy our thirst as human beings?
- What can we learn from Jesus in this story about how to relate with other people?
- In what ways did Jesus use the bucket and the well to try to draw her deeper?
- What are some of the defence mechanisms we use to prevent Jesus taking us deeper?
- What is Jesus saying to you right now from this story?

Then as a whole group discuss these statements that were made Sunday....

**Jesus didn't give her what she wanted but he gave her what she needed**

**She came to a well with a bucket but she found a well that didn't need a bucket**

**She came to a well, she found a well, she became a well**

- What do these mean to you?
- What are some of the implications?

Finish by praying for one another, 'is anyone thirsty' then the APP is DRINK!

Then pray for others that you might meet. Can we accept the challenge to be like Jesus and try to draw people to the well that they might drink and find life?!
