

Life begins when....Week 6 - We live supernaturally

Welcome

When you think back on this last week when have you been surprised by God, yourself or by others?

Word

This week we wrap up the series looking at the early church by considering how they lived naturally supernatural lives and how we can live the same.....

- When you think of the word 'supernatural' what comes to mind?
- What experiences have you had that could be called supernatural?
- If supernatural means 'beyond natural' what kind of things might that include?
- What things do you read in the book of Acts that can't be explained without the supernatural intervention of God?
- What are some of the factors that work against us living naturally supernatural lives?

Read the passage from Romans 8 v. 9-19.

- What hits you from these verses?
- What challenges you or inspires you?
- What do you find confusing or hard to understand?

Consider the 3 applications mentioned on Sunday...

1. Be connected to the power
2. Stay connected to the power
3. Step out in the power

- What are you learning when it comes to these 3 challenges?
- How would you like to grow when it comes to living more supernaturally?

Finish by praying for one another...for the supernatural intervention of God in your lives...pray for each other that this week you will live a little more supernaturally than last week....

Then pray for our church as we prepare to celebrate our 40th anniversary this coming weekend! Pray we will be more and more a naturally supernatural church....after all...

If a church isn't supernatural it'll become superficial
