

## Our House – Week 3 - Connect group notes

### Being Connected

#### Get started

Do you watch DIY house programmes?  
Do you have a favourite?  
If you could renovate a room, which would it be?

#### Get stuck in...

We are looking at the value of being relational, another key to being an open house.

- What do you think of when you think of the word relational?
- Why is relationship appealing and also challenging?
- How does our experiences of being relational impact our view about God?
- How should it?

The early church were connected and relational...

Read Acts 2:42-47 again

- What jumps out at you from these verses? What do we find inspiring, attractive and what do we find most challenging or uncomfortable?
- What could this look like in 21<sup>st</sup> century life for LifeCentral?
- Have you been helped/supported/encouraged by the fellowship at LCC? Have you seen how other people have been supported?
- How has how we relate to each other: become personal not functional, strengthened you, built up your faith?
- What can we do to embrace someone else (like the sequoia trees example)

#### Get praying...

Spend some time praying for one another and those people we feel may be disconnecting...  
Continue to pray for the unity of our community, that we can be the best community for the community.
